

# INTRODUCING AEROKLAS CANOPIES EVERYTHING ELSE IS THIN SKINNED

## DUAL CAB & SPACE CAB CANOPIES

Aeroklas are on the cutting edge of canopy manufacturing and development being the first company in the world to offer Engineered ABS Double Shell Canopies.

Both the inner and outer shells are moulded together to bring you twice the strength and durability than a single skinned canopy, featuring a higher impact resistance and ability to reshape after impact.

Available in dual and space cab, the Aeroklas canopy is painted using OE quality paint giving it such a perfect, glossy and flawless finish.
