FRONT UNDERBODY GUARD (F.U.G.) SHOWN (077SBFUG50Q)

MITSUBISHI TRITON MQ TJM UNDERBODY GUARDS

To protect the most vulnerable components underneath the vehicle TJM underbody guards are constructed from 3mm mild steel sheet and incorporate strategic folds for incredible strength. They are electro coated for corrosion resistance of up to 500 hours. The advantages of electro coating is that it gets into all the nooks and crannies and is much more resilient to chipping when knocked around.

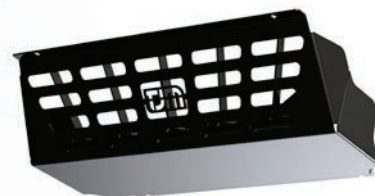

Features

- › 3mm mild steel
- › Provides excellent underbody protection
- › Electro coated for up to 500 hours of corrosion resistance
- › Powder coated black finish
- › Press folded in strategic areas for absolute maximum strength
- › Drain access holes where necessary
- › Shrouded washers to protect bolt heads
