NEW TOYOTA 79 SERIES DUAL CAB TJM SINGLE BODY AIRTEC SNORKEL

Every 4WD should enjoy the Airtec advantage

- › Fitting a TJM Airtec snorkel allows air to be drawn from roof level providing a continuous supply of cooler and cleaner air to the engine.
- › Because the air supply is drawn from roof level, dust is not as thick and plentiful in the engine bay or inner guard. This will help extend the life of the air cleaner element, reducing the wear of vital components.
- › With the positively sealed TJM Airtec snorkel well above water level, you can expect worry free water crossings.

Features & benefits

- › The TJM Airtec intake design separates rain or moisture from the air stream before it enters the engine.
- › Engineered to supply the correct volume of air or better to the engine.
- › Manufactured in Australia from high quality UV-resistant (UV20-UV24) polyethylene for maximum strength and rigidity. All TJM Airtec snorkels incorporate stainless steel hardware.
- › Utilises Australian plastic materials containing a combination of special additives and strong bonding processes. The result is a product with strong physical properties and tough impact resistance.
- › Colour fast using a process called colour compounding. The pigment is fused into the molten base resin before the product is even moulded ensuring an evenly saturated polymer which prevents rubbing off or bleeding.
- › Designed to be aesthetically pleasing. Each Airtec snorkel is designed to flow with the vehicles natural styling, they are easily the best looking snorkels on the market.
- › Simple installation minimising modifications to vehicle's original components.
- › Designed exclusively for TJM and supplied through the TJM Australia wide and international sales and service network.

DESCRIPTION: **TJM AIRTEC SNORKEL BODY, TOYOTA LANDCRUISER 70 SERIES**
PART NUMBER: **011SAT0169G**

DESCRIPTION: **TJM AIRTEC SNORKEL HEAD, TOYOTA LANDCRUISER 70 SERIES**
