MAZDA 2012 BT50 TJM AIR BAG COMPATIBLE MODULAR SIDE BAR & STEPS

TJM is proud to announce its new air bag compatible (ABC) side step mounts are available for your Mazda 2012 BT50. An extensive engineering development and testing program was undertaken to ensure optimal performance for off road driving and user operation while still providing maximum vehicle safety compliance. In the event of a side impact accident the unique design of the TJM ABC side step mounts provide a crumple zone that keeps the vehicle from deploying air bags unnecessarily. Unnecessary deployment of air bags can cause injury and significant repair costs for the end user. TJM ensures the safety of the end user by engineering all accessories in compliance with vehicle OE safety systems.

TJM modular side bars & steps offer excellent wheel arch, flare, sill and panel protection but the unique feature of these modular side bars and steps is if you choose, you can install just the side steps and then fit the side bar kit at a later date. This unique design is only available through TJM.

Features

- › Large 50mm^Ø tubing
- › Engineered air bag compatible heavy duty mounting system
- › Provides unrivalled wheel arch, flare, sill & panel protection
- › Durable, light weight checker plate steps provide easy access to and from the cab, as well as added side protection
- › Air bag compatible and does not void your new vehicle warranty
