TJM XGS 4WD SUSPENSION (45-50MM)

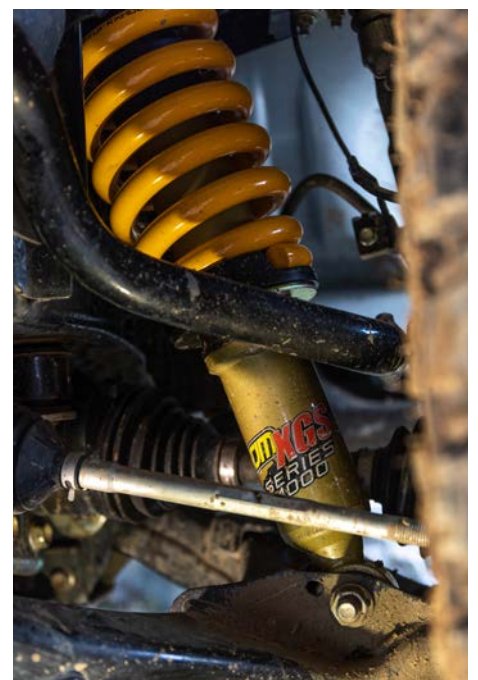

MAZDA BT-50 09/2020 - ON

AVAILABLE
NOWFITTING
4HRS

Product Information

Whether you're tackling corrugated roads, rough terrain, or planning to tow a caravan across the country, you can't go past a TJM XGS suspension kit to improve every aspect of your drive. You'll be equipped for a smoother, more comfortable ride while also improving road handling, braking ability, noise and vibration.

4WDs have factory engineered suspension, but it's usually only enough to accommodate a boot load of gear and general road driving or limited off-road driving. Installing a set of shock absorbers, a pair of springs or a full TJM XGS suspension kit will immediately transform your vehicle's ride handling, load carrying and towing capabilities.

- | | | | |
|---|--------------------------------------|---|---|
|  | 1. 20mm hard chromed piston rod |  | 7. 1.6mm outer tube wall |
|  | 2. High pressure threshold oil seal |  | 8. High grade damper oil |
|  | 3. N2 charged |  | 9. Compact outer case diameter |
|  | 4. Twin tube design |  | 10. Multi staged velocity controlled valving |
|  | 5. 40mm big bore piston |  | 11. Seamless welds & stitch welded construction |
|  | 6. Quality banded teflon piston seal |  | 12. High durability bushes |

Features and benefits

Increased Ride Height	Improves the ride height, increasing the vehicle's clearance and off-road capability.
Improved Handling and Performance	The XGS range provides superior handling and comfort, while improving body control. Allows the vehicle to articulate better over obstacles. Reduced shock fade for longer performance.
Proven and Tested	Designed and tested in Australia, TJM's XGS Suspension is designed to go the distance.
Vehicle Specific	Each TJM XGS Suspension Kit is designed and tailored to complement each vehicle's ride and handling characteristics.

Part & Location	Description	Notes	Part Number	Qty Req	RRP
