TJM SIDE STEPS

MAZDA BT-50 09/2020 - ON

PART NUMBER
735BSSA34G

Product Information

Shield your 4x4's broad side panels from flying debris and uneven terrain with TJM Side Steps. TJM Side Steps for the Mazda BT-50 protect the sills as well as providing a step platform for vehicle access or to load gear on roof racks.

TJM Side Steps feature 63mmØ tubing and durable alloy checker treadplate for safety and reliability, while their chassis-mounted design provides optimum step strength.

TJM Side Steps and TJM Side Bars are uniquely designed to be modular. This means a TJM Side Step can be fitted independently of a TJM Side Bar, which gives you the freedom to have side steps fitted to your 4x4 with the option of adding side bars later.
