MAZDA BT-50 09/2020 - ON

FRONT UNDERBODY GUARD. **077SBFGA34G**SUMP GUARD. **077SBSGA34G**TRANSMISSION GUARD. **077SBTRA34G**

Product Information

Mazda BT-50 owners can shield the vital components of their 4x4 with a set of TJM Underbody Guards. Underbody damage from obstacles like tree stumps and rocks can put an end to any off-road trip, but BT-50 owners can protect their vehicle and keep the adventure going with TJM's range of underbody guards for the Mazda BT-50.

All TJM underbody guards are made from 3mm steel and finished with a hard-wearing powder coat for ultimate performance and durability. Specially designed, pressed and folded to provide optimum strength and protection, you can be sure the entire TJM underbody guard range will take the brunt of any impact, ensuring the vital components of your vehicle are out of the firing line.

Feature list

- Press formed in key areas for maximum strength
- 3mm steel – finished in a satin black powder coat
- Can be fitted individually
