Product Information

TJM Side Bars for the Ford Ranger provide optimum protection for the vehicle's guards, along with additional support for your bull bar's tubing and TJM side steps. Featuring strong 63mmØ steel tubing, they boast our proven two-piece clamp system that is made from high-strength steel that's finished in black satin powder coat to maximise durability.

TJM's Side Steps feature 63mmØ tubing and durable alloy checker treadplate for safety and reliability. They're also chassis mounted for optimum strength and protection for side sill sections and doors when traversing challenging terrain.

TJM Side Steps and TJM Side Bars are uniquely designed to be modular. This means a TJM Side Step can be fitted independently of a TJM Side Bar, which gives you the freedom to have side steps fitted to your 4x4 with the option of adding side bars later.

Feature list

SIDE STEPS

- Airbag compatible
- Alloy checker plate step treads Powder coated Matt Black Texture
- Heavy-duty steel modular design mounted directly to chassis rail.
- Side Steps powder coated satin Black
