8TH GEN 08/20-ON 4DR C/CHAS & PICK UP

PART NUMBER
070SB13A87J

Product Information

The genuine TJM Outback bull bar delivers unparalleled frontal protection for your Hilux. All-new full wrap rolled cato straps and 63mm outer pipework provides added strength, damage deflection and headlight protection, while its multi-fold channel has been strategically pressed and CNC folded to maximise impact strength. Unlike other bull bar manufacturers, TJM's standard winch frame mount system includes an essential 4x4 accessory as standard with every TJM Outback bull bar: 8000kg rated recovery points. The TJM Outback bull bar is also equipped with reinforced Hi-Lift jack points, LED combination lights plus optional fitment of LED or LED DRL fog lights. Meanwhile, it's ready to provide a home for additional accessories with dual aerial mounts and mounting points for installing driving lights. Take the lead with TJM.
